# SUMMER RESORTS.

SEA-BATHING! SEA-BATHING! COBB'S ISLAND, VIRGINIA,
Is now open and READY FOR VISITORS.

TERMS-\$3 per Day; \$18 per week. Address - COBB BROTHERS. · Cherrystone, Va.

Bo Route-From Baltimore by Old Bay Line, and Norfolk by steamer N. P. Banks to Cherry-stelle.

CAPPER SPRINGS. FREDERICK COUNTY, VA.

These well-known Springs, having been recently purchased by a company of Washington gentlemen, will be opened to the public Juke 20, 1871, under the management of Mrs. CLARA A. RINES.

They are located among the mountains, sixteen miles west of Winchester, from which place they are accessible by a daily line of stages; and in beauty of location, variety and value of the Mineral Waters for medicinal purposes, and the attractiveness of the surrounding scenery, are not excelled in the country. No public bar will be opened for the sale of spiritu-cus liquors, and everything possible will be done to add to the desirableness of the place for those wish-

ing a quiet home.

Terms: \$2.50 per day, \$15 per week, and from \$40 to \$50 per mouth; children under ten years and servents half price.

Further information may be obtained of any of the following persons:
Mrs. C. A. Rines, 808, 810 and 812 12th street.
Wm. Ballantyne, Esq.
A. S. Pratt & Sons.

Elegant Hair

Adds a charm to the plainest face; but when faded, features before agreeable lose their comeliness, and the whole expression is that of advancing age. This being a fact, it is not surprising that even injurious articles should have been prepared to supply the millions who wish to avoid prematurely gray hair. Under these circumstances it will scarcely be wondered at that NATTANS' CRYSTAL DISCOVERY should have met with such extraordinary success. It is the only preparation furnishing a safe and reliable restorer for the hair; absolutely free from all poisonous and deleterious matter, and without sediment, and thousands above thousands have availed themselves of it, not simply because it restores the color of the hair, but because it supplies nourishment. It feeds the roots of the hair, so that where decayed it becomes vigorous and healthy again. From all sections of the country orders and testimonials are received daily, speaking in the highest terms of its qualities as the only preparation that ever gave entire satisfaction. For safe by Ward & Walsh, 19th st. and Pa. av., and 13th and G; S. Calvert Ford, 1105 Pa. av.; Christiani Bros., 7th and M sts.; G. W. Cropley, 110 Bridge st., Georgetown; J. D. O'Donnell, 8th st., Navy Yard, D. P. Hickling, 2d st. and Pa. av.; B. A. Bacon, 45 and F sts., Island; Wm. H. Daw, corner 10th and L sts.; and at the Depot, corner of 2d and D sts. N. W. jel2-tf

EVENING STAR. Washington News and Gossip.

INTERNAL REVENUE.—The receipts from this source to-day were \$656,028.57. THE SUBSCRIPTIONS to the new loan to-day

amounted to \$110,000. SECRETARY BELKNAP is expected to return here from West Point this evening. COUNT CORTI, the Italian Minister to the

United States, is making a visit to Boston, and is the guest of Mr. Francis Braggotti. "GRACE GREENWOOD" has transferred her

correspondence from the N. Y. Tribune to the Times CAPTAIN EDWARD BARRETT, U. S. N., has been ordered to duty in charge of the Naviga-

tion Department of the New York navy yard. SECRETARY ROBESON will not leave the city this summer for any extended trip, but may visit some of the neighboring watering places and his home in New Jersey for a few days at a time. THE PRESIDENT has decided to make a trip

to the Pacific coast the middle of August, and will visit Salt Lake City, Nevada, California, and probably go to Portland, Oregon. THE FIRST of the new \$100 gold potes were delivered to the United States Treasurer to-day

by Mr. McCartce, Superintendent of the Bureau of Engraving and Printing. THE COMPTROLLER OF THE CURRENCY has requested national banks throughout the country

to report their condition at the close of business on Saturday, June 10. THE THIRD RATE SCREW STEAMER WACHU-

SETT, now fitting out at New York, will sail from that port in the course of a few days for Norfolk, Va.. where a new propeller will be attached to her, and in the course of a few weeks she will sail for the Meditteranean. EXAMINATION OF NAVAL ENGINEERS .- The

Secretary of the Navy has convened a Board of Engineers, to meet at the Philadelphia navy yard, to examine the engineers for promotion who, owing to the late war, were not able to get proper time for examination. THE PRACTICE SHIPS Constellation and Sara-

toga will sail from Annapolis this week with the midshipmen on board for the annual cruise. The squadron will not visit Europe this year, but will cruise along our northern coast and return to the Academy in September. Ex-SECRETARY SEWARD and party arrived at Suez, Egypt, on the 9th ult., and were

hospitably received by the Khedive, and an elegant palace placed at their disposal. By order of the Sultan, Mr. Seward is to be the SCIENTIFIC EXPEDITION .- Professors Agassiz

and Hill will sail for the Pacific coast on September 1st, in the new iron coast survey steamer Navy, in the course of erection at Wilmington. Del., and will take deep sea soundings all the way on the route, and collect specimens or natural history for Cambridge University.

THE CUBAN CLAIMS .- The commission to settle the claims of American citizens for property destroyed in Cuba has commenced preliminary business. At the meeting on Saturday the umpire, Baron Lederer, appeared and accepted the position. Notice for the presentation of claims will soon be issued. ASSISTANT SECRETARY RICHARDSON, J. P.

Bigelow, chief of the loan division, and C. E. Prentice, of the Register's Office, Treasury Department, sail from New York on Wednesday in the Java for Europe to assist in negotiating the new loan. Buring the absence of Mr. Bigelow, D. Baker, Esq., will act as chief of the loan di-

FRESHET PROBABILITIES .- The Signal Service Bureau now proposes to establish a system of water gauges on the Mississippi and its tributary waters, so that by combining the reports the volume of water to be expected on a certain day in the lower Mississippi can be accurately estimated, and timely notice given to enable the people to prevent a crevasse by repairing the weak spots in the levees.

THE CONTRACTS for material for the new State Department building will not be awarded until architect Mullett's return from New York, which will be to-morrow or next day. Mr. William Forsyth was to-day engaged in making the measurements and staking off the site for the building. The south front will be on a direct line with the south front of the Treasury, and the east front will extend over to the President's stable, which building will be removed.

A RICH SENATOR .- The Leavenworth Times, speaking of Mr. Caldwell, the new United States Kansas Senator, says:-When Caldwell left here his wealth was estimated at half million. When he arrived in Chicago the papers reported him as worth \$3,000,000. The other day he visited New York and there his wealth was quoted at \$8,000,000. If Caldwell will heed our advice he will keep on travelling. He will probably be a rich man by the time Congress meets.

MR. BENJAMIN N. MEEDS, ASSESSOT of Internal Revenue for the District of Columbia, has been appointed Auditor for the Board of Public Works for this District, and will resign his assessorship to accept the new position. The position of assessor here is not as profitable now as it was before the new revenue laws went into operation. It is not now worth more than fifteen or eighteen hundred dollars per annum, it is said. Mr. Meeds has not yet tendered his resignation to Commissioner Pleasonton, but will probably do

WAR DEP'T, OFFICE CHIEF SIGNAL OFFICER, WASHINGTON, D. C., June 12—10.30 a. m. Synopsis for the past twenty-four hours.—The barometer remains sensibly stationary at the Rocky Mountain and Pacific stations. The pressure has risen slightly in the Mississippi valley, but has fallen to the eastward. The area of very low pressure has extended over New York and the Eastern States, but has probably, on the whole, moved northeastward. Southwesterly winds prevailed Sunday from the Atlantic coast to the lower lakes. Northwesterly winds are now reported from Lake Ontario to Arkansas and westward, with clearing and clear weather.

Probabilities.—It is probable that the barometer will rise in the Middle and Eastern States during the day, and the storm be very generally cleared away by Monday evening, followed for a short time by brisk northwesterly winds from Virginia to Massachusetts. Clear weather will probably continue during the day from Lake Erie to Tennessee and westward, with cool west-LOCAL RECORD.—The thermometer in THE EVENING STAR business office registered as fol-

lows to-day:—8 a. m., 69; 10 a. m., 70; 12 m., 71; 3 p. m., 75. CROP PROSPECTS .- Recent observations of the crops indicate in general a fair prospect for the year, and the rain of Wednesday night, along the Atlantic coast, which was the eastern movement of a storm that covered a large part of the West and South, must have revived hopes in quarters where they had begun to fail, while the direct beneficial influence was most decided. The farmers everywhere complain of a deficient hay

THE MORSE STATUE, in New York, was unveiled on Saturday. The inaugural address was delivered by William Cullen Bryant, and speeches were made by Governor Hoffman and Mayor Hall. In the evening there was a grand celebration at the Academy of Music, from whence a message was sent by wire all over the United States, Prof. Morse writing the signature with his own hand. The statue rost \$12,000, and was purchased by the subscriptions of the telegraphers, the greater number of sums less than five dollars. The pedestal is the gift of a few private citizens. The statue is of heroic size, and was modeled by Byron H. Pickett, and case at the National Fine Art Foundery by Maurice I. Power. The face is a striking likeness of

Prof. Morse.

THE STEAMER GEO. WEEMS was distroyed by fire in Baltimore Saturday night; loss \$45,000; insured for \$10,000. The steamer George Law was damaged to amount of \$2,000; no insurance. WASHINGTON is making progress. Hogs, cattle.

goats and goese are no longer to be allowed to run in the streets there.—Springfield (Mass.) Re-

PAY ADVANCES.

. Power. The face is a striking likeness of

Editor Star: It is perhaps not generally remembered by those who suffer from deficiency of water in the higher regions of the city, that wherever the water flows from the pipes in the lower story of a house at any time during the day or night, the use of a common pump will procure a supply at all times. As the pump attached to a pipe takes off the pressure of the atmosphere, water will be delivered through the pump at a level thirty feet higher than that at which it will

TWO CENTS.

THE WATER SUPPLY.

An Important Suggestion.

flow naturally.

To prevent waste by overflow through the pump whenever the pressure is greater than usual, as during the night, a stop-cock should be placed on the pipe connecting the pump with the

hydrant or service pipe.

A few dollars spent in a common iron pump set up in the kitchen sink of any house in which the Potomac water flows irregularly, and only at intervals, will be found a most valuable in-

There is probably now no part of the city in which the water mains are laid, in which water will not flow constantly in the lower part of the cellars, which, if deep, will be at a level not above that of the water main itself. Hence those who fail to get water on the main floor of their houses may generally, if they have cellars, command it by putting a hydrant, outlet and stop-cock near the cellar floor.

A plumber can determine in any case whether

a hydrant thus placed will be effectual. If not, the remedy is to attach a pump to the service pipe for use whenever the water fails to come by June 12th. M. C. MEIGS.

The Jerome Park Races. The opening day of the spring meeting at Jerome Park, New York, is one of the most important events in the sporting calendar. On Sat-urday last the weather was fine, the track in good order and the attendance very large. The first race was for the Fordham stakes, a The first race was for the Fordham stakes, a handicap sweepstakes of \$50 each, p. p., for all ages, only \$10 if declared, \$500 added, the second horse to receive \$200 out of the stakes, one mile and a quarter. Thirty nominations. Thirteen horses started, among which were Chillicothe, Finesse, Nellie James, Climax, Niagara, and My Maryland. Heavy pools were sold before the race, in which Chillicothe was the favorite, selling for \$115 to \$100 for Finese and Nellie James, \$20 for Climax and \$10 for My Maryland. The \$20 for Climax and \$10 for My Maryland. The race was won by Chillicothe in 2 min., 13% sec.,

Climax second. The second race was the Belmont stakes for three-year-olds, one hundred dollars entrance, half forfeit, and \$1,500 added, with \$300 out of the stakes to second horse. One mile and five furlongs. There was seventy-six entries, and consequently the value of the stake was not far from \$6,000. The following horses started:—Harry Bassett, By-the-Sea, Nellie Grey, John Merryman, Mary Clark, Stockwood, Edwin, and Wanderer. The race was won by Harry Bassett in 2 minutes and 56 seconds; Stockwood second, By-the-Sea third, and Nellies Grey fourth. Ed-win, the Maryland representative, appears to have got but an indifferent place. Bassett had sold at \$250 in the Pools, to \$150 for Stockwood,

and \$60 each for the rest.

The third race was a premium of \$800, for all ages, two miles, with the entrance money reserved for the second horse. The starters in this were Hamburg, Ruford's filly, Judge Durell, Midday, Regards, Sir Rufus, Victoria, and De-fender. Hamburg won in 3.40; Defender second; Judge Durell third. Hamburg had been the favorite in the pool selling.

The fourth race was a steeple chase, for all ages, welter weights, the premium being \$800, with the entrance money for second horse. The distance was about two and a quarter miles. this there started Oysterman, 158 pounds; Mitchell, 155 pounds; Tammany, 145 pounds; General Tweed, 148 pounds; and Athlone, 154 pounds. Won by Oysterman, Jr.; time 5.12; Tammany second.

EXPERIMENTS with Bessemer steel show it to be one of the most plastic and manageable of metals-more so even than copper. An exchange says it can be bent, fianged or twisted, either hot or cold, without annealing, and over a consider-able range of temperature, which is not the case with ordinary steel or copper. A plate of eighteen inches diameter was forced through a series of dies until it formed a tube thirteen feet long and one and three-fourth inches diameter, with out any crack or flaw. A ring of metal can at one heat be hammered into a die to form a locomotive engine chimney-top. In drilling a circular hole into a Bessemer steel plate continuous shavings are formed, whereas in a copper plate or other metal the shaving breaks into pieces one-tenth of an inch long. Thin sheets of the Besse-mer soft steel can also be bent backward and forward hundreds of times without a fracture. and are almost as malleable as paper.

WOMEN HOMEOPATHISTS.—The Homeopathic Convention at Philadelphia, prior to its adjourn-ment last week, admitted three women to membership in its institute, viz: Mercy B. Jackson, M.D., Harriet Judd Sartain, M.D., and Harriet S. French, M. D. The convention altered its by-laws so as to provide for the admission of all female homeopathic physicians properly quali-fied. There was much debate on the question, however, but the friends of female doctors were finally successful, and hereafter women will take places as recognized practitioners among

THE MARLBORO' TURNPIKE.—The Directors of the District of Columbia, Upper Marlborough, and Hill's Landing Turnpike Company, met here on Tuesday last, and, after some discussion of the affairs of the Company, determined to resume work on the road at an early day, and awarded the contract for half a mile of road, commencing at Hill's Landing, and extending toward this place, to Wm. B. Hill.—Prince Goorgian.

Too THIN .- A Boston lady thinks she is going to get to heaven on the strength of her well-known charity to the poor. She has frequently been known, without any display of ostentation, to boil a large number of eggs, and when the poor people come to her door distribute to the hungry callers the soup that was left after boil-ing the egg. Such acts of charity are unusual in Boston; but that's a little too thin to get to heaven on without stirring in a little thickening.

CHARGE OF CONSPIRING AGAINST A NEWS-PAPER OFFICE.—Seven members of the Typographical Union were arrested in New Haven, Connecticut, Saturday, under the statute law of the State, for conspiring against the office of the Mourning Journal and Courier. The persons arrested have obtained bonds. Both parties are determined to take the matter to the highest court.
